

Call For Papers

Invited Session Deep Processing of Unstructured Data

In order to get high quality papers, we invite you to submit paper to Invited Session on Deep Processing of Unstructured Data in International Conference on Machine Learning and Cybernetics (ICMLC) 2024.

Description

This session aims at exploring intelligent ways of processing in depth unstructured data in terms of feature extraction, feature selection and classification. This session welcomes submissions of papers related to unstructured data processing and papers that address the above issues are particularly encouraged. All submitted papers will be evaluated on the basis of their relevance, technical merit and quality of writing.

Topics of Interest

- Knowledge graph
- Feature extraction
- Feature selection
- Feature transformation
- Feature fusion
- Deep learning
- Ensemble learning
- Representation learning
- Meta learning
- Embedding learning
- Multi-Modal learning
- Text mining
- Image processing
- Signal processing
- Computer vision
- Computer graphics
- Medical imaging
- Covid diagnosis
- Sentiment analysis
- Affective computing
- Emotion detection
- Topic detection
- Cyberbullying detection
- Cyberhate detection
- Social media analysis
- 3D reconstruction
- Object recognition
- Activities recognition
- Emotion cause analysis
- Question answering systems
- Machine translation

Important Dates

Submission Due:	5 July 2024
Notification of Acceptance:	20 July 2024
Registration Due:	20 August 2024
Camera-Ready:	20 August 2024

Paper Submission

Authors must submit an electronic copy (in word or pdf) of their complete manuscript directly to the Session Organizer (han.liu@szu.edu.cn).

Organizer

Dr. Han Liu
College of Computer Science and Software
Engineering, Shenzhen University, Shenzhen, China
(han.liu@szu.edu.cn)

Dr. Li Zhang
Department of Computer Science, Royal Holloway,
University of London, Egham, UK
(li.zhang@rhul.ac.uk)
